

CAMERA TRAFFIC COUNTERS

VISITOR COUNTING

Camera people counting sensors identify hot spots for the most efficient placement of displays and promotional material by analyzing dwell-time and other motion data, allowing you to maximize customer attention. With outstanding 3D image quality, excellent low-light sensitivity and very low latency, the new generation of people Sensors are the ideal platform for a wide range of predictive solutions that go far beyond counting.

The APS-90E combines a smart, highly dynamic stereoscopic camera with enough on-board computing power to pack precise image processing and feature-rich application software into an updated, sleek design.

The APS-180E boasts an intelligent, highly dynamic stereoscopic camera outfitted with precise image processing and feature-rich application software.

STOREMONITOR COMPATIBLE 

Features & options:

- Object classification
- Remote maintenance and diagnostics
- StoreMonitor connectivity
- Zone-monitoring
- Video recording
- Re-entry and re-exit detection
- Multisensor fusion
- Additional alarm outputs*

* It has to be specified prior to order, a hardware modification is needed.
